LINING OUT STOCK

Our stock of liners have been produced with the

aid of irrigation and we feel that they are very good. Have you tried Fall Planting? We like to do our own plantings to the field starting the last of September and running through the fall months, the results have been much better than spring plantings.

If the soil is heavy clay, you may have trouble with heaving, so in cases of this kind, it might be necessary to wait for spring.

Early fall planting can be helped by sowing broadcast Summer Oats and cultivating them in. They will grow about 10 to 12 inches high by the time winter kills the tops and this will make good protection to the small plants from the winter winds. protection to the small plants from the winter winds and will also help keep the ground from heaving so badly. Be sure you use Summer Oats as the Winter variety will be hard to clean up in the spring.

Why not try a fall order? If this is not suitable,

let us book you for spring.

Sincerely,

Elton L. Lynch

EXPLANATION OF GRADES: We are listing our liners in grades by the number of years they have been growing under the lath screens; for example, 1 yr. means 1 year in outside beds. 2 yr. would be 2 years outside, etc.

TERMS AND CONDITIONS OF SALE

This list cancels all previous quotations. All agreements and contracts are made subject to crop losses through unavoidable causes.

TERMS: Cash with order, or all orders must be accompanied by one-fourth of the amount of order and the balance will be shipped C. O. D. unless satisfactory arrangements are made before shipping date. Shipments travel at purchaser's risk.

NO ORDERS WILL BE ACCEPTED ON B & B MATERIAL FOR SHIPMENT BY COMMON CARRIER CRATED OR BOXED.

CLAIMS: All sales are made with the understanding that we shall not be liable in event of crop loss, or of damage from other causes over which we have no control. We will gladly correct any errors, but we cannot entertain any claims that are not made within five days after receipt of the stock or are made after the stock has once been accepted. Claims should be made promptly in writing on receipt of stock. Plants become your property upon delivery to transportation company and we cannot be responsible for loss, damage, or delay in transit. All orders booked are based on the distinct understanding that the purchaser agrees to the condition of sales as stated above.

GUARANTEE OF GENUINENESS: We will send out healthy, thrifty stock, true to name. If any nursery stock proves untrue to description or variety name under which it is sold, we hold ourselves in readines on proper proof, to replace free of charge such stock that may prove untrue to description or name, or refund the original amount paid. We shall in no case be liable for any sum greater than the amount originally received for said stock.

BOXES AND BALES will be charged at actual cost. INSPECTION. Certificate of inspection will be furnished with every shipment.

SPECIAL NOTICE. Correspondents are requested to use their printed business letterheads. We do not quote price to retail buyers. We use every effort to limit the distribution of trade prices to those whom we know to be entitled to receive them.

LOCATION. We are located on U. S. Route 113, 4½ miles south of Milford, Delaware. We would be pleased to have you call and look over our nursery which covers about 150 acres.

TELEPHONES. Milford 4445, day or night.
